

NIKHIL MAHARANA

Software Engineer | Full-Stack Developer | AI/LLM Applications

Berhampur, Odisha, India | +91 9938956809 | nikhilmaharana10@gmail.com | [Portfolio](#) | [GitHub](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Early-career software engineer with hands-on experience building full-stack applications using Python/Django and the MERN stack. Experienced in REST APIs, authentication, MongoDB-backed applications, deployment, and LLM API integration. Built and deployed independent projects alongside two development internships spanning frontend and backend development.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, C

Web & Frameworks: Django, Django REST Framework, React, Node.js, Express.js

Databases: MongoDB, SQL/MySQL, SQLite

AI/LLM: Groq API, LLM API Integration, Prompt Engineering

Data & Analysis: NumPy, Pandas, Matplotlib, scikit-learn

Tools: Git/GitHub, Postman, Vercel, Render, Brevo email/OTP

Core: OOP, Data Structures & Algorithms, DBMS, REST APIs, Authentication

PROFESSIONAL EXPERIENCE

Hexaphor Technologies Pvt. Ltd. — MERN Stack Developer Intern

Mar 2026 – Jun 2026

- Contributed to a 4-person team building Vyora, a MERN-based business lead automation application, working across frontend and backend development.
- Implemented 2–3 frontend pages and authentication flows for admin, vendor, and user access, integrating MongoDB-backed CRUD functionality.
- Created MongoDB schemas and implemented email/OTP authentication using Brevo, connecting backend data flows with the application.
- Deployed the team's version using Vercel and Render and developed custom UI designs alongside existing application logic.

Web Bocket — Python Full Stack Developer Intern

May 2025 – Jul 2025

- Built Python/Django web applications during the internship, including the Gossipify social media application.
- Performed data filtering, analysis, and visualization on real-world GDP data using NumPy, Pandas, and Matplotlib.

PROJECTS

Gossipify — Django Social Media Application (Python, Django, SQLite) | [GitHub](#)

- Developed a full-stack social media application in Django with user registration, login/logout, and Django's built-in authentication system.
- Implemented CRUD-based post creation, editing, and deletion with a social feed supporting multiple user accounts; previously deployed and tested on PythonAnywhere (currently inactive).

Progress AI — AI Career Guidance Chatbot (Python, Django, Groq API) | [GitHub](#)

- Built an AI-powered career guidance chatbot integrating the Groq API to suggest career paths, job opportunities, and learning schedules from user education and skills.
- Designed a JSON-based contextual dataset and prompt instructions to guide consistent, career-focused chatbot behavior, with voice interaction for user input and responses.

EDUCATION

Master of Computer Applications (MCA) — GIFT Autonomous, Bhubaneswar

Aug 2024 – Jun 2026

CGPA: 8.37/10

Bachelor of Science — Physics — Khallikote Unitary University

Dec 2021 – May 2024

CGPA: 6.7/10

CERTIFICATIONS & ACHIEVEMENTS

- Selected for the TCS Ninja role through the TCS NQT recruitment process; scored 64 in the first attempt of the TCS IPA assessment.
- NPTEL: Programming in Java (82%), Introduction to IoT (80%).
- Udemy: AI for Every Employee — Understanding and Using AI (Sep 2026); Complete Data Privacy (GDPR) Fundamentals (Sep 2026).
